[6:57 p.m., 9/9/2024] English 🧑: Ludwig van Beethoven was a German composer and pianist; his music is amongst the most performed of the classical repertoire, and he is one of the most admired composers in the history of Western music. His works span the transition from the classical period to the romantic era in classical music.

Beethoven lived when the piano was still a new instrument, and when he was a young man, he was a talented pianist. Beethoven was popular with the rich and important people in Vienna, Austria, where he lived.

In 1801, however, he began to lose his hearing. His deafness became worse. By 1817, he was completely deaf. Although he could no longer play in concerts, he continued to compose. During this time he composed some of his greatest works. He is said to be one o...

Mauna Loa is one of the biggest volcanoes in the world. It is a shield volcano, which means it has gentle slopes. Its lava is runny, so it can flow far away. Mauna Loa has erupted many times, but it is not very dangerous. People can study it safely.

Mount Fuji is different. It is a stratovolcano, with steep sides. The lava from Mount Fuji is thicker, so it does not flow as far. This volcano is very pretty, and it is a symbol of Japan. People like to climb Mount Fuji in the summer. It has not erupted for a long time, but it can still be dangerous.
